1

General Information

How many photos:

Main Movie Title:

Special Occasion
or
Theme for movie?

2

Transitions/Effects

Fade In/Out (Included in every movie)

Motion Effects (\$20 / 250 photos)

Images zoom and pan on screen based on each photo and/or style of music

3

Titles and Scene Selection

of Scenes (Included in every movie)

Scenes are just like chapters on a regular movie. They allow you to navigate to different sections of the movie based on grouped scenes that you create. You may create as many as you like. A basic example for a wedding reception could be:

Scene 1 - The Bride
Scene 2 - The Groom
Scene 3 - The Bride and Groom.

of Title Pages (\$0.99 per title page)

Title Pages are text slides in the movie that are used to label different sections of the movie. You may add as many as you like to personalize your movie.

4

Music No Music Single Songs Downloaded (\$0.99 ea.)# of Songs Music CD (\$0.50 per song) - selected tracks from your own CD# of Songs

5

Upload Digital Images \$11.99

1) You may include digital images in your slideshow movies. Make sure your images are at least a 720 x 480 resolution, otherwise the images will appear out of focus and blurry.

2) Make sure you label your digital images in the order you wish for them to appear in the movie. Label each one as 1, 2, 3, 4, 5, etc. Otherwise when we upload them, they will not keep the original order.

Slideshow Organization and Set up

- 1) Separate your photos into different groups to create your scene chapters
- 2) Group your photos in the order you want them to appear in your movie
- 3) Label each group for your scenes
- 4) If you are adding Title Pages, write them on paper, and place them between your photos where you would like them to appear
- 5) Have this form filled out and printed at time of pickup OR email the finished form to photos@nashtucky.com

Here is an example of how to fill out the Organizing/Setup section. Please note, if you are not adding title pages or music, just leave those sections blank. Just make sure to label each group of photos you create with scene1, scene2, etc.

Scene/Chapter	Title	#photos	Music - Artist name, title, track #	Song Length
1	1st Birthday	10	Pedro the Lion - Rejoice, #10	3:10
2	Growing Up	150	Jack Johnson - All at once, #1	3:37
			Jeff Buckley - Hallelujah, #12	9:17
			Rolling Stones - Honky Tonk Women, #2	3:19
	Off to College	50	Steve Miller Band - The Joker, #8	3:37
3	The Wedding	40	Van Morrison - Starting a New Life, #4	2:35
4	Honeymoon - Vegas	60	Damien Jurado - Honey Baby, #4	3:41
		Total # of photos :	310	Total song length :
				29:16

General Rule of Thumb:

When trying to decide how much music you will need, keep in mind that there are approximately 10 - 12 images per minute. Just divide the number of photos you have by 10. (310 photos / 10 = 31 minutes)
